

In an effort to partner with our customers in their fight against COVID-19, we've quickly pivoted our manufacturing capabilities to offer products that keep your employees, customers, fans, and visitors **safe during these unprecedented times**. Now more than ever we need to work together to protect our employees, guests, and customers because ultimately that **helps to keep families in our communities safe**.

With 23 years of manufacturing experience and working with thousands of customers, our shift in focus will allow us to use our expertise in the markets we serve and the materials we use to be a helpful partner at this time. Our **new CARE Line** is rapidly being designed to allow you to easily provide reassurance that your property is taking steps to keep people safe, while integrating your organization's critical messaging and brand standards.

Circumstances change at a moment's notice, this line of products allows you to not only keep everyone healthy but communicate critical policies and procedures. Help flatten the current pandemic curve and protect your employees and guests from a second outbreak, thus reducing spread in your community and saving lives.

Products include Protective Stands, Hand Sanitizer Stations with messaging, Kiosks and integrated hand sanitizers with waste/recycling. The first set of products, available now, are our new **Sneeze Shields**, designed for healthcare, manufacturing, retail, and foodservice applications.

**Counter and table shields** were also created for essential business where social distancing is not always easy. Clear rigid barriers provide a sneeze guard and cough protection while accommodating credit card machines.

Along with being a line of defense and safety, the **new product line** is portable, easy to install with no hardware required, easy to clean and disinfect and come in custom sizes.

The new CARE line can ship within days of ordering. For more information please visit [prestwick-group.com/cares](http://prestwick-group.com/cares) or contact us today at **(888) 868-6297**.
